## Online Testing

Each year, millions of clock drawing tests are administered across the world. This is the first and only fully web-based Clock Drawing Test, one of the most widely used cognitive assessment tests. Instant scores, reports, statistics, and feedback are provided through an exclusively unique online application. This Online Clock Drawing Test effectively reduces patient wait time and equipment costs associated with other cognitive screening tests. Importantly, this test provides the simultaneous review and comparison of data across agencies in real time. Our Online Clock Drawing Tests™ are portable wherever there is a computer and Internet connection.

This test effectively reduces wait time and costs associated with manual administration, semi-computerization, and use of other cognitive tests. No other visual attention assessment is as sensitive as the Automatic Clock Drawing Test™. Studies show that Automatic Clock Drawing Test™ results correlate with crash risk.

Automatic Clock Drawing Tests™ are powerful weapons in the global challenge against brain injury, cognitive impairment, and dementia. Online Automatic Clock Drawing Tests™ offer great potential for fitness-to-drive evaluations to reduce crashes. Click and connect your office today.

- Consists of cognitive test recommended by the American Medical Association and NHTSA for older driver assessment
