No special or heavy equipment. No hassles.
Automatically screens & scores cognitive ability.
Use your own computer now.

Benefits

- Completely computerized
- Very fast, sensitive, & objective
- Instant scores, reports, & feedback
- Scientifically proven
- Multimedia & interactive
- User friendly & self-service option
- Many foreign languages
- Touch screen Sytotechnology™ option
- Standardized & paperless tests
- Useful for all ages & cultures
- Optimized for repeated administration
- Satisfies cognitive assessment component of the Automated Driver's License Test
- Consists of cognitive test recommended by the American Medical Association and NHTSA for older driver assessment
- Powerful office & field evaluations
- Satisfies cognitive assessment component of the Automated Driver's License Test
- Ideal assistive technology for disabled veterans & special needs
- Engages people who are unable to draw or write

Automated Testing

Each year, millions of clock drawing tests are administered across the world. This is the first and only fully computerized Clock Drawing Test, one of the most widely used cognitive assessment tests. Instant scores and feedback are provided through an exclusively unique software application. The Automatic Military Clock Drawing Test™ effectively reduces patient wait time and equipment costs associated with other cognitive screening tests. Importantly, this test provides those who know military time (international time) with the opportunity to engage in uniform cognitive testing. Our Automatic Clock Drawing Tests™ are portable wherever there is a computer.

This test effectively reduces wait time and costs associated with manual administration, semi-computerization, and use of other cognitive tests. No other visual attention assessment is as sensitive as the Automatic Clock Drawing Test™.

Automatic Clock Drawing Tests™ are powerful weapons in the global challenge against cognitive impairment, brain injury, Alzheimer disease, and dementia. These tests actively engage the disabled and those with Parkinson disease. Automatic Clock Drawing Tests™ also offer great potential for fitness-to-drive evaluations to reduce crashes.

AUTOMATE YOUR OFFICE TODAY WITH THIS POWERFUL SOFTWARE TEST.

REDUCE PATIENT WAIT TIME NOW WITH OUR ONLINE CLOCK DRAWING TESTS.
